

A Step-by-Step Guide For Sponsors

Completing Lessons from the Settle In App

Steps to Complete Lessons from the Settle In App

This image is from the [CO toolkit](#). The CO toolkit is a grab-and-go resource that teaches CO providers to incorporate key CO messages into the early resettlement services they are already providing, such as enrolling children in school or applying for health insurance. CORE's newcomer-facing Settle In resources are integrated throughout the CO toolkit.

This image is from the CO toolkit. Whenever the CO activity title includes the phrase "using the Settle In app," you will be instructed to find and complete a lesson from the Settle In app. This guide provides step-by-step instructions on how to complete lessons from the [Settle In app](#).

Transportation Orientation | Pages 50-51

Transportation in the U.S. using the Settle In app

This activity is ideal for teaching newcomers about public transportation in their community and basic information about owning and driving a car.

Instructions

STEP 1
Ask newcomers: Have you used public transportation since arriving in the United States? Which mode of transportation did you use? How was it?

Key Messages:
Using public transportation is an affordable mode of transportation.

STEP 2
Assist newcomers in navigating the Settle In app on their phones or computers. Open the "Transportation" chapter of Settle In and then select the lesson: Public Transportation. Work with newcomers to complete the lesson on the Settle In app and assist newcomers in navigating the technology.

STEP 3
If your community has public transportation, show participants the process for using public transportation. Consider showing photos of the different modes of public transportation in your community.

STEP 4
Ask newcomers: Did you own a car in your country? What costs were associated with owning a car?

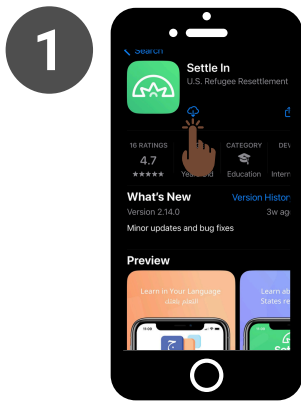

STEP 5
Explain to newcomers: Owning and driving a car comes with certain responsibilities, such as maintaining personal safety and following traffic and driving laws. There are consequences to breaking these laws. There are also car-related expenses when purchasing and maintaining a vehicle.

Step 1: Identify the Lesson

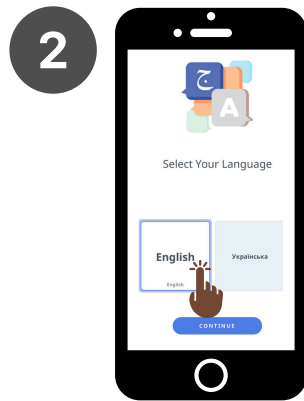

This image is from the twentieth early resettlement service: transportation orientation. This service usually occurs within 30 days from arrival to the United States. When providing this service, you should facilitate the CO activity: Transportation in the U.S. using the Settle In app.

In step 2 of this CO activity, you are instructed to work with newcomers to complete the following lesson on the Settle In app: public transportation. Before introducing this lesson to newcomers, consider reviewing it in a language you understand. This will help you answer their questions. Let's review how to find the lesson.

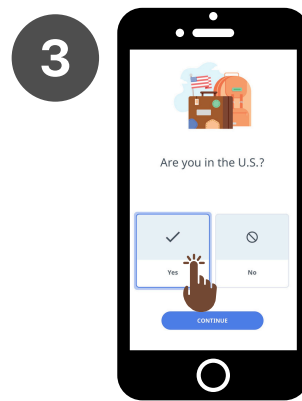

Step 2: Download the App

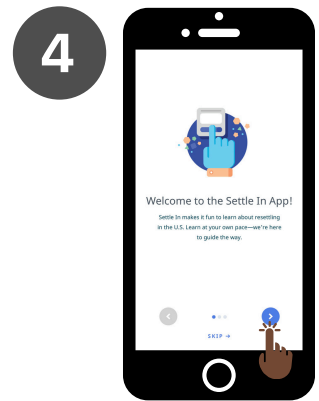

Download the app.

Select your language.

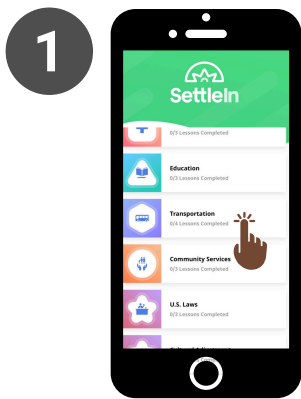

In response to the question, "Are you in the U.S.?", select yes.

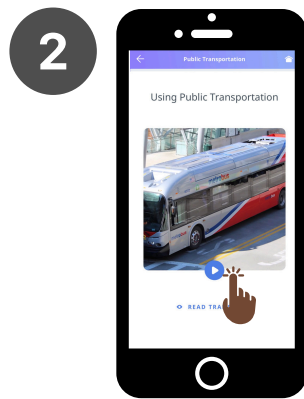

Finish the setup. The app will automatically save and default to these settings for future use.

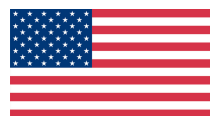

Step 3: Find the Lesson

From the main page on the Settle In app, open the chapter: Transportation.

Select the lesson: Public Transportation. Now you are ready to complete the lesson!

The content of this online lesson was developed under an agreement financed by the Bureau of Population, Refugees, and Migration, United States Department of State but do not necessarily represent the policy of that agency and should not assume endorsement by the Federal Government.
